DETAILED ACTION

1. Claims 1-20 have been presented for examination based on applicant's amendment filed on 11/28/2005.
2. Claims 1- 20 are allowed.

Response to Arguments

3. Applicants arguments filed on 11/28/2005 have been fully considered.
4. **Regarding amendments to the specification:** The examiner withdraws the objections to the specification in view of applicant's amendment to the specification and arguments filed on 11/28/2005.

Regarding applicant's response to double patenting and Terminal

Disclaimer: The terminal disclaimer filed on 11/28/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of prior Patent No. 6,912,675 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Regarding applicant's response to 102 rejection: Applicant's arguments, see page 18 lines 7-16, filed 11/28/2005, with respect to claims 1 and 11 have been fully considered and are persuasive. The rejections of claims 1 and 11 have been withdrawn.

Regarding applicant's response to 103 rejection: Applicant's arguments, see page 23 lines 5-14, filed 11/28/2005, with respect to claims 18 has been fully considered and are persuasive. The rejection of claim 18 has been withdrawn.

Allowable Subject Matter

5. Claims 1-20 are allowed.
6. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of Claim 1-10 is the prior art of record fail to teach or in combination with another prior art the limitation of "detecting a condition wherein the bits of a first group within the plurality of bits of said parameter value all have the same bit value and predetermined bit within a second group of the plurality of bits of said parameter value has a bit value equal to the bit value of the bits of the first group, " and " in response to detection of said condition, outputting from the data processor via terminals thereof only the second group of bits of said parameter value without outputting the first group of bits of said parameter value".

The primary reason for allowance of Claim 11-20 is the prior art of record fail to teach or in combination with another prior art the limitation of " said apparatus including an evaluator coupled to said input for detecting a condition wherein the bits of a first group within the plurality of bits of said parameter value all have the same bit value and predetermined bit within a second group of the plurality of bits of said parameter value has a bit value equal to the bit value of the bits of the first group of bits of said parameter value, said evaluator operable for providing condition information which indicates that said condition has been detected."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
